OFFERTA VALIDA FINO AL 30 NOVEMBRE 2014

Mainsail (T-10 3DL) Alto

~~Euro 1.500,00~~

Euro 1.275,00

The Alto version of the T-103DL has proved successful on both M7/Cumulus or Alto masts and been adopted as the standard sail for 2014. Thermo molded 3DL sails offers a stronger more durable sail with greater performance and longevity (more info. on 3DL can be found on our [technology page](#)). It is manufactured in Kevlar 600M.

Mainsail (T-10 3DL) Cumulus M7

~~Euro 1.500,00~~

Euro 1.275,00

The Cumulus/M7 version of the T-103DL is a little fuller and is available for those wanting more power. Thermo molded 3DL sails offers a stronger more durable sail with greater performance and longevity (more info. on 3DL can be found on our [technology page](#)). It is manufactured in Kevlar 600M

Mainsail (T-10K)

~~Euro 1.066,00~~

Euro 906,00

This full radial mainsail has been developed to compliment all mast sections for all sailors' requirements. This design has had another successful season winning 4 National Championships and finishing 2nd at the Worlds. It is manufactured from Kevlar ATX-2Mil.

Jib (RJ-3)

~~Euro 353,00~~

Euro 300,00

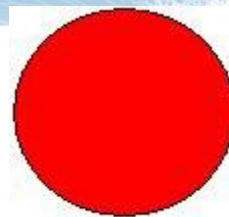

The cross cut RJ-3 is our all round design jib, it is easy to setup and read in all conditions. Custom cut leech lengths are available to suit your fairlead position (if you don't have a Winder hull please let us know when you place your order). It is manufactured from Dacron 200AP HTP+. New for 2014 is an additional vision window to allow the helm to see forward on the downwind legs while sitting to leeward.

FIREBALL

Jib (RJ-3)

~~Euro 353,00~~

Euro 300,00

The cross cut RJ-3 is our all round design jib, it is easy to setup and read in all conditions. Custom cut leech lengths are available to suit your fairlead position (if you don't have a Winder hull please let us know when you place your order). It is manufactured from Dacron 200AP HTP+. New for 2014 is an additional vision window to allow the helm to see forward on the downwind legs while sitting to leeward.

Jib (RJ-3H)

~~Euro 366,00~~

Euro 311,00

The cross cut RJ-3H is an all round jib, designed to the same flying shape as the RJ-3 but manufactured from a heavier fabric (Dacron HTP-208 square) to give a greater longevity to the sail for the club racer. Custom cut leech lengths are available to suit your fairlead position (if you don't have a Winder hull please let us know when you place your order). New for 2014 is an additional vision window to allow the helm to see forward on the downwind legs while sitting to leeward.

Spinnaker (DS-5)

~~Euro 546,00~~

Euro 465,00

The bi-radial DS-5 shows excellent speed and is an all round performer, it is manufactured from a combination of Superkote 75 & Dynakote 75. It is easy to trim and has excellent acceleration on a reach with the ability to keep the power on and go deep on the broad legs when required. It is an ideal choice for those who sail inland or on courses with a lot of reaches.
